

- 13 Kind of gene that is not dominant
- 14 Fits into the active site
- 15 Breeding the best characteristics
- 16 Added to baby food to help protein breakdown
- 18 Bossy alleles
- 21 Milk sugar
- 22 A square to show allele combinations
- 24 \_\_\_\_\_ fibrosis
- 25 Name of a noted sheep

## Biology 2

### Across

- 3 This is reduced in the gene pool due to selective breeding
- 5 Kind of flatfish that doesn't freeze
- 10 Inherited blood disorder causes extensive bleeding
- 12 Cystic \_\_\_\_\_
- 17 Dolly the sheep, notably
- 18 Enzymes out of shape and can't work anymore
- 19 Copies of a recessive allele needed to show the characteristics
- 20 Another name for Rennet
- 22 Friendly bacteria sometimes added to Yogurt
- 23 Product of photosynthesis along with Oxygen

- 26 Type of powder used with plant cuttings

- 27 Type of reproduction, one organism involved

- 28 Genetic \_\_\_\_\_

### Down

- 1 Yeast produces alcohol by this process
- 2 Important hormone, can be produced with E Coli
- 4 Possible source of inherited genetic problems
- 6 Gas product of fermentation, makes bread rise
- 7 Most desirable temperature for an enzyme to work in
- 8 Uses biological processes to create useful products
- 9 \_\_\_\_\_ Cervisiae
- 11 Hip problem in Labradors
